Mr. Newcomb said they have recommended closing the water monitoring at 929 Route 10 but are waiting to hear back from DES. The Selectmen and Credere Associates reviewed the property information. Mr. Newcomb said that the Town should be able to build on the site. If the Town discovers anything buried that was not known by their testing, it would need to be disposed of properly. If any petroleum residue is found from the old fuel tanks funding may be available but not if it came from the old tanker that was removed.
