Review of draft Minutes of 7/8/19

The draft minutes were approved with one change: Under Old Business, 2nd paragraph – July was changed to August.

Old Business.

Building Permit language. The language, as contained in the May13th minutes, was revised as follows and one final review, before adoption, will occur at the September meeting:

Will the project require earth material to be removed from this property?

Y N

If excavation of earth material is required, which is more than exclusively incidental to construction, a review by the Lempster Planning Board is necessary. It is important to note that the final determination of whether alteration of terrain with a lot is incidental to construction or requires an earth excavation permit, is to be determined by the Lempster Planning Board.
